XS SERIES SPORTS SPEAKERS & SUBWOOFERS

**6.5" / 7.7" MARINE SPEAKERS
10" MARINE SUBWOOFERS**

XS SERIES SPORTS SPEAKERS & SUBWOOFERS

PRODUCT OVERVIEW

NEW ADDITIONS TO THE XS SERIES RANGE

The new **XS Series Sports Speakers and Subwoofers** are designed to deliver high-performance acoustics and enhanced styling to your boat at a midrange price point – **without RGB LED lighting options.**

These XS Series Sports Speakers are available in 6.5" 200-watt and 7.7" 240-watt sizes, with the XS Series Sports Subwoofers available in a 10" 600-watt size. The XS Series range will now be available in three styles – **Classic, Sports and Sports with RGB LED lighting options.**

EXPERIENCE HIGH PERFORMANCE SOUND

The XS Series Sports Speakers combine optimized speaker drivers with tweeters to reproduce high quality audio at all volume levels. The XS Series Sports Subwoofers add another dimension to your on-water listening experience with quality bass.

Preconfigured DSP profiles can be selected for the XS Series Sports Speakers and Subwoofers from the Fusion-Link™ app, delivering an optimized listening experience with compatible Fusion® DSP enabled stereos.

IP65 WEATHERPROOF

The XS Series Sports Speakers and Subwoofers are rated IP65 for water and dust ingress protection, while also meeting industry standards for UV and salt fog protection. This makes them perfect for the harsh outdoor marine environments.

RETROFITTABLE FOR FR SERIES SPEAKERS

Designed to be retrofittable for the 6" and 7" FR Series Speakers, you can install the XS Series Sports Speakers without needing to reconfigure the existing speaker cutout, simplifying installation.

EASILY INTERCHANGEABLE GRILLES

With two grille colors included in the box, Sports White and Sports Gray, you can customize the style of the XS Series Sports Speakers and Subwoofers to suit your taste.

VERSATILE 2.1 DESIGN

Designed for system versatility and ease of integration, create a 2.1 audio zone by connecting two speakers and a subwoofer directly to a Fusion multi-zone stereo with DSP, like the Apollo™ Series stereos, without the need to use an external amplifier – simplifying installation and reducing system cost.

Simply connect a pair of speakers to the zone 1 speaker connections, and the XS Series Sports Subwoofer to the left and right speaker connections of zone 2, then select the applicable DSP profile for setup in the Fusion-Link app.

TRUE-MARINE™ PHILOSOPHY

True-Marine design philosophy from Fusion stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season. The XS Series Sports Speakers and Subwoofers come with a 3-year warranty.

KEY FEATURES

The new **XS Series Sports Speakers and Subwoofers**, with their innovative technology and design, offer a high performance audio entertainment experience, featuring:

KEY FEATURE

The speakers are designed to fit in existing FR Series mounting cutouts, simplifying installation and making it easier to upgrade your speaker system.

Create a 2.1 audio zone by connecting two speakers and a subwoofer directly to a Fusion® multi-zone stereo with DSP, like the Apollo™ Series, without the need to use an external amplifier – simplifying installation and reducing system cost.

Easily change the grilles of your speakers or subwoofer to suit your taste, with both Sports White and Sports Gray grilles supplied in the box.

KEY FEATURE

Water-resistant IMPP cone improves the robustness of the speakers and subwoofers, allowing for clean, clear audio reproduction.

True-Marine™ design philosophy from Fusion stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season.

KEY FEATURE

The aluminum dome tweeter provides a smooth upper frequency response and increased efficiency, which delivers crystal-clear music reproduction (speakers only).

Rated IP65 for water and dust ingress protection, these speakers and subwoofers also meet industry standards for UV and salt fog protection. Enjoy confidence that your XS Series Sports Speakers and Subwoofers will last season after season in the harsh marine and outdoor environment.

200-watt peak power (6.5" speaker)

240-watt peak power (7.7" speaker)

600-watt peak power (10" subwoofer)

4-ohm nominal impedance

All crossover components are fully sealed, providing increased protection from the harsh marine environment. This delivers an improved frequency response at the crossover point for a detailed audio spectrum and a new level of acoustic performance (speakers only).

The XS Series Sports Speakers and Subwoofers have passed stringent strength and water ingress tests. This is critically important as it ensures boat builders and consumers alike are installing a safe speaker system. By achieving ISO12216, the XS Series Sports Speakers and Subwoofers earn recognition for their superior design and build quality.

PRODUCT COMPATIBILITY

STEREOS

APOLLO™ RA770

MS-RA770 | SKU 010-01905-00

Through creative design and technological brilliance, a purpose-built marine audio entertainment system featuring many industry firsts has been created, including many innovations you are accustomed to at home. Tap and swipe your way intuitively through your playlists with the glass touchscreen display, even with wet fingers, and enjoy high-quality music all day with Wi-Fi® streaming, including the AirPlay® 2 feature from Apple® or universal plug-and-play.

APOLLO RA670

MS-RA670 | SKU 010-02138-00

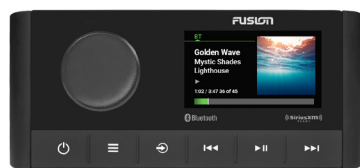

Award-winning innovation reembodyed, the Apollo RA670 marine entertainment system features Fusion® DSP technology, PartyBus™-Network¹ capability, over-the-air software updates¹, Wi-Fi audio streaming¹ with AirPlay 2¹, Multi-Zone™ technology in up to three zones, optical audio input, Fusion-Link™ integration and an optically bonded 2.7" color display. The RA670 is truly a powerful extension of the Apollo Series.

APOLLO WB670

MS-WB670 | SKU 010-02346-00

Designed to simplify dash space at the helm, the new Apollo WB670 hideaway system inherits key audio innovations from the Apollo RA670 reengineered in a compact, space-saving form factor, allowing for installation in out-of-way places such as storage lockers, inside helm consoles and other hidden compartments. Key features include Fusion DSP technology, PartyBus-Network¹ capability, Fusion-Link integration and more.

RA210

MS-RA210 | SKU 010-02250-00

The MS-RA210 compact marine stereo features new-look design aesthetics and built-in DSP technology from Fusion for an optimized audio entertainment experience. Key features include an optically bonded 2.7" color display, Fusion-Link integration and more.

RA70 SERIES

MS-RA70 | MS-RA70N | MS-RA70NSX

The value-for-money RA70 Series is designed to seamlessly replace any existing standard DIN-sized stereo. Key features include an optically bonded monochrome display, IPX7 water resistance from the front panel, Fusion-Link integration and more.

BB100

MS-BB100 | SKU 010-01517-01

The MS-BB100 is a compact, value-packed black box entertainment solution designed to save space at the helm. Key features include Fusion-Link integration, Multi-Zone technology in two zones and an IPX7 rated wired remote control.
