

We are excited to announce the next stage in the evolution of Simrad® NSX® as we introduce the highly anticipated new 1.5 NEON software update. To ensure that you have the most updated information, we have updated the Simrad NSX course in NOLA to help highlight some of the most exciting features about the new software.

## **Here are some of the exciting new features included in this 1.5 update:**

1. Full integration with Mercury - providing a seamless experience
2. Sonar sharing - allowing for a full sonar networking across NSX devices
3. Support for 3rd party charting - giving users more charting options
4. Revolutionary C-MAP® X-Chart Store & X-Chart Manager - bringing new ease-of-use for updating and downloading C-MAP charts directly on the device
