

INSTALLER REBATE

MAKE MORE MONEY

As our sales team has OFTEN PREACHED, many of you are leaving money behind which could be \$1000's of dollars by not claiming your install rebates! Be it time, work force, paperwork, happy hour.... Prevent you from getting to it. Vendors like Garmin, Fusion, Lowrance, Simrad, Raymarine, and FLIR for example offer up to 10% rebate checks for installs not being claimed for your pocket!

CED wants to help you earn this extra cash by being a customer of ours. We have heard your cries on finding time to do this so we are going to help!

The first of every month, you will receive an automated email of purchases you made from CED that month on these products. This will give you all the product details by factory (Price, model, serial number, date, PO#). Then all you have to do is fill out your customers boat details on the vendor form and get YOUR MONEY! Keep this in mind when placing orders so you can put a boat name in the PO.

Our sales team takes pride in being the Electronics Experts and making certain our customers are aware of products, programs, tech info and profit opportunities. If you are not aware of these forms, please contact our team and we will help you!

Just another way CED Marine appreciates your business!
